

Uniting to Change Lives - One Sunday at a Time

SACHIN SARCOMA SOCIETY, INDIA

AUTHORS: RASHI KAPOOR, LAKSHAY NAGPAL

Sachin Sarcoma Society (SSS) Weekly Patient Support Group – Building a Lifeline for the Sarcoma Community

OBJECTIVE

- To shine a spotlight on rare tumors like sarcoma, desmoid, and GIST.
- To create a safe haven for patients, caregivers, and survivors to connect, share, and heal together.
- To break down isolation by providing holistic support: emotional, educational, financial, and logistical.

COMMUNITY BENEFITS

- Raises awareness of rare tumors.
- Educates patients, caregivers, and medical professionals
- Provides a support system, alleviating stress, and fostering companionship
- Enhances mental health through shared experiences and psychological support.
- Strengthens a sustainable and replicable ecosystem for sarcoma care.

ACKNOWLEDGEMENTS

We express our immense gratitude to **Dr. Sameer Rastogi**, Sarcoma Medical Oncology Clinic, All India Institute of Medical Sciences, New Delhi and all sarcoma patients and caregivers.

IMPLEMENTATION

- Plan weekly topics for Sunday meetings, alternating between educational sessions by doctors and motivational sessions with patients and survivors.
- Create and distribute posters and Zoom invites via WhatsApp groups and social media to notify the community.
- Share post-meeting photos and summaries to engage new patients and raise awareness.

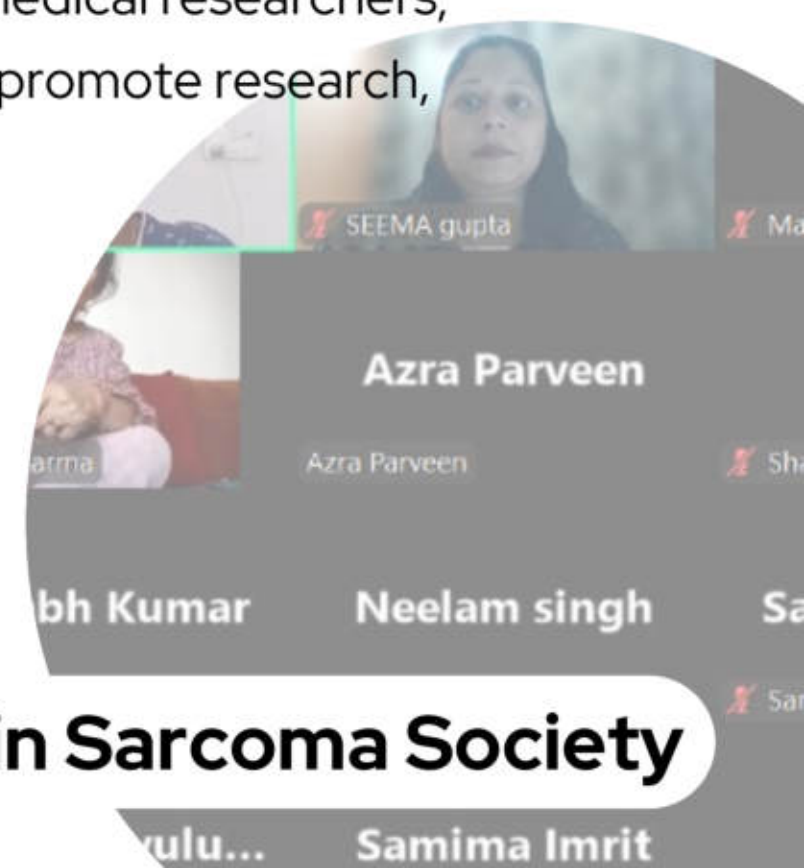

NEXT STEPS

- Continue weekly support group meetings.
- Extend support across India and internationally
- Conduct more educational and motivational sessions.
- Initiate research on sarcoma awareness and mental health.

SACHIN SARCOMA SOCIETY

SSS is dedicated to providing comprehensive support to sarcoma patients and their families. Their key objectives include:

- **Patient Support:** Offering emotional, financial, administrative, and logistical support to sarcoma patients, guiding them through their treatment journey.
- **Awareness and Education:** Spreading awareness about sarcoma to dispel myths, encourage early diagnosis, and promote understanding about the disease among the general public.
- **Research and Innovation:** Collaborating with medical researchers, pharmaceutical companies, and other NGOs to promote research, innovative treatments, and drug accessibility.
