## ABOUT PROJECT AADHAR

Aadhar is an in-kind support program wherein patients are supported with hair wigs, confidence bags, transport service, chemo caps, infection control kits, discharge gifts, umbrellas, winter warmers and bra prosthesis; these services are on need basis and are totally free for the patient community.

## IN KIND SUPPORT:

### Wigs

When times are tough, putting on a wig can make one feel more confident and normal again. Wigs help people cope with hair loss during treatment. Wearing a wig improves the quality of life for many patients as it allows them to feel more at ease while undergoing treatment.

### Chemo Caps

Patients are not only kept warm and comfortable by these caps, but they also symbolise hope and support to those going through tough times.

### Confidence Bags

These bags provide a way to discreetly carry drainage tubes and bags, helping patients feel more comfortable in public settings. By enabling patients to maintain a sense of normalcy and confidence, these bags can positively impact their emotional health during treatment. It serve as a practical and empowering solution for patients with drainage tubes.

### Transportation

Transport services are a crucial component of comprehensive cancer care, improving access and patient experience. It aids in safely and comfortably transporting patients, especially those with mobility issues. Reliable transport enables patients to adhere to their treatment schedules

### Umbrella

Umbrellas offer practical protection and emotional support, enhancing the overall well-being of cancer patients. A bright, colorful umbrella can serve as a symbol of positivity and resilience.

### Bra & Prosthesis

Bras and prostheses is crucial for the physical and emotional well-being of cancer patients. It helps to restore body image, allowing patients to feel more like themselves and boosting self-esteem.
